ABOUT ME

DevOps Engineer with a strong foundation in networking, cybersecurity, and cloud computing. Passionate about building scalable, resilient, and secure infrastructure through automation, Infrastructure as Code, containerization, and CI/CD. Enjoy solving complex technical challenges and continuously improving systems to enhance reliability, performance, and operational efficiency. Committed to continuous learning and delivering high-quality, production-ready solutions.

EDUCATION

Bachelor's degree in Computers & Information 2023 – 2027
Menofia University
Information Technology Department
GPA: 3.2

TRAINING & INTERNSHIPS

DevOps Engineer 07/2026 – 12/2026
Digital Egypt Pioneers Initiative - DEPI
Practical DevOps training focused on modern CI/CD pipelines, cloud architecture, and infrastructure automation.

- Designed and built CI/CD automation pipelines using Git, GitHub, and Jenkins.
- Containerized and orchestrated applications using Docker and Kubernetes.
- Managed cloud infrastructure using Terraform, Ansible, and AWS.
- Monitored system health with Prometheus and delivered a real-world capstone project.

Network & Cloud Infrastructure Specialist 05/2024 – 04/2026
National Telecommunication Institute - NTI
Comprehensive training covering AWS Cloud Architecture, Cisco Networking (CCNA), and Huawei Network Security (HCIA).

- Designed scalable, highly available, and secure cloud infrastructure on AWS.
- Configured enterprise routing, switching (OSPF, VLANs), and network topologies.
- Implemented network security policies, firewalls, and VPNs (IPsec/SSL) to mitigate threats.
- Managed infrastructure as code with Terraform and delivered hands-on network-cloud projects.

PROJECTS

Enterprise Network Infrastructure 08/2025 – 08/2025
Cisco Packet Tracer | VLANs, Static Routing, Inter-VLAN Routing, Port Security

- Designed and deployed a scalable enterprise network using Cisco Packet Tracer.
- Configured VLANs, trunk links, and inter-VLAN routing for efficient network segmentation.
- Implemented static routing across three routers to achieve end-to-end connectivity.
- Applied port security and designed an IP addressing & subnetting scheme.
- Tested and troubleshooted the network to ensure reliable connectivity.

SKILLS

Cloud & DevOps Technologies
Docker, Kubernetes, Jenkins, Terraform, Ansible, AWS, Prometheus, Git, GitHub

Languages & Scripting:
Python, Bash, YAML, JSON

Architecture & Concepts
CI/CD, Infrastructure as Code (IaC), Containerization, Microservices, Cloud Architecture, DevOps Practices

Networking & Security
TCP/IP, DNS, HTTP/HTTPS, VLANs, OSPF, VPN (IPsec/SSL), Firewalls, Linux Security

Monitoring & Observability:
Prometheus, Grafana

Soft Skills
Problem Solving, Communication, Teamwork, Time Management, Adaptability, Critical Thinking

LANGUAGES

Arabic
(Native)

English
(Conversational)
